## About Me

Highly motivated 19-year-old Engineering student at AL-Azhar University, Cairo, with a strong passion for FullStack development, Competitive Programming, and UI/UX design. Bilingual in Arabic (native) and English (C2 certified). Proven ability to solve real-world problems through innovative web solutions and deliver high-quality freelance work.

## Education

### Bachelor of Engineering (Currently Pursuing)

AL-Azhar University, Cairo  
Expected Graduation: [2029]

### High School Diploma

Qurtuba Azhar Institute  
[2024]

## Projects

### Transport Map of Egypt

In Progress

- Developed a web map using Leaflet.js to visualize public and private transportation routes in Egypt, addressing a real-life problem of unlisted routes.
- Built with HTML, CSS, and JavaScript, emphasizing clean and solid UI/UX design.
- Collaborated with a teammate for data processing, converting Google's My Maps JSON coordinates into usable route formats using Python.

### Trip Planner Web App

- Designed and developed a modern, responsive ReactJS web application (built with Vite and styled with CSS) for efficient trip planning.
- Implemented detailed financial tracking (expenses, budgets) visualized through interactive charts, and features for daily task creation and management.

- Offers an intuitive experience for travelers to budget, organize, and visualize journeys seamlessly, showcasing strong UI/UX principles.

## Certifications

### EFSET C2 English Certificate

EF Education First

[Month Year of Certification]

### Competitive Programming Participation Certificates

Various Organizations

- EOI Junior Division
- IIOT Egyptian Onsite Qualifier

Various Dates
